About

Naturally curious iOS developer with over **9 years** of experience, having spent most of my time working at various companies and as an independent contractor. I have worked on a variety of projects, including **CRM** and telecom **network apps**, **SAAS** apps using **Bluetooth** tech, **Enterprise apps**, **News/Marketing** apps, and more.

Recent History

Mobile Developer
The List
March 2022 - Present

- Development and publishing of the Seller App, with the use of SwiftUI.
- Continuous improvement of the Customer App, developed in Xamarin.
- Ongoing migration of the Customer app from Xamarin to SwiftUI.

Lead iOS Developer
Upsales Nordic AB
March 2018 - March 2022

Spearheaded a major restructuring of the legacy CRM app and developed a brand new, improved and more scalable version of the app in Swift; increased user engagement - while leading a team of developers, utilizing an agile workflow.

Communicated with different clients to develop custom white-label versions of the app.

Co-founder & Mobile Developer
Enspyra Tech
April 2016 - March 2018

Managed a cross-functional team, ranging from mobile developers, digital marketers, content writers and collaborated with business development and data analysis operations.

Led a mobile team in the development of News & Marketing Apps, improving the stability and scalability of the applications, prompting the increase of the user base.

Education

Msc in Management of Information Systems
University American College Skopje
2012 - 2015
Thesis: "Implementation of Monetization Practices in Mobile Applications"

BSc in Software Engineering
University American College Skopje
2009 - 2012
Developed a system for a virtual medical office using ASP.NET technology together with SQL server 2008 as a graduation thesis.

Skills

Swift

Writing Swift full-time for 6+ years and closely following its evolution since 1.0. I follow the latest trends and keep up with the development of the iOS ecosystem, and, as of late, this includes the ever-so improving framework of SwiftUI.

Objective C

Prior to Swift, I was introduced to mobile development with Objective-C, with which I developed and worked on a multitude of different apps.

Communicating ideas

I have a special talent for breaking down complex topics and presenting them in an easy to understand manner.

I get immense fulfillment from mentoring and knowledge sharing.

Other Skills

Mentoring and Managing
UIKit, CallKit, SwiftUI
CocoaPods / Carthage / SPM
Agile and SCRUM methodologies
Continuous Integration - CircleCI
Jenkins, Bitrise

MVC, MVP, MVVM
React-Native
Emotional Intelligence
XCode
Git version control, Jira
AdobeXD, Figma

Interests

Football   Jogging   Crypto   Travel
Hiking   Books   Blockchain   LOTR

Languages

Macedonian, English, Swedish
Native or bilingual proficiency
